1 About this Statement

Integrating the Healthcare Enterprise (IHE) is an international initiative to support vendor-independent interoperability between different healthcare systems. Interoperability is periodically tested at so-called *IHE Connectathons*, where vendors prove the successful interconnection of their software with different systems from other vendors. Successful test results of implemented IHE Profiles are published as IHE Integration Statements.

In order to satisfy the highest-quality requirements, ITH icoserve technology for healthcare GmbH has committed to periodically testing their product *syngo*.share at IHE Connectathons to confirm the compliance with current IHE Integration Profiles.

Vendor

ITH icoserve technology for healthcare GmbH

• **Product name** *syngo*.share

Version

VA42A

This product implements all transactions required in the IHE Technical Framework to support the IHE integration profiles, actors and options listed on the following pages.

Note

Profiles are tested regularly at EU and/or US Connectathons.

2 Profiles

Table 1: Profiles

Access to Radiology Information (ARI) Image Manager/Archive Report Repository Audit Trail and Node Authentication (ATNA) Audit Record Repository Secure Application Secure Node Radiology Audit Trail	Integration profiles implemented	Actors implemented	Options implemented	syngo.share core	syngo.share import syngo.share webview

3 Actors and profiles

Profiles are managed by different IHE Domains. The following tables show the profiles (and their acronyms) implemented and tested by ITH icoserve technology for healthcare GmbH per domain.

Table 2: Profiles in radiology (RAD)

Acronym	Profile					
ARI	Access to Radiology Information					
CPI	Consistent Presentation of Images					
ED	Evidence Documents					
IOCM	Imaging Object Change Management					
IRWF.b Import Reconciliation Workflow						
KIN	Key Image Note					
MAMMO	Mammography Image					
NMI	Nuclear Medicine Image					
PDI	Portable Data for Imaging					
PIR	Patient Information Reconciliation					
REM	Radiation Exposure Management					
SINR	Simple Image and Numeric Report					
SWF.b	Scheduled Workflow.b					
XDS-I.b	Cross-Enterprise Document Sharing for Imaging					

Table 3: Profiles in cardiology (CARD)

Acronym	Profile
ED-CARD	Cardiology Evidence Documents

Table 4: Profiles in IT infrastructure (ITI)

Acronym	Profile								
ATNA	Audit Trail and Node Authentication								
CT	Consistent Time								
PAM	Patient Administration Management								
PDQm	Patient Demographics Query for Mobile								
PDQ/PDQV3	Patient Demographics Query/Patient Demographics Query HL7 V3								
PIX/PIXV3	Patient Identifier Cross-Referencing/Patient Identifier Cross-Referencing HL7 V3								
XDS.b	Cross-Enterprise Document Sharing								
XUA	Cross-Enterprise User Assertion								

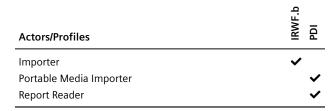

3.1 Overview of actors and profiles in *syngo*.share core
